Re: Docket Number 03-080-2 (Proposed rule; Reopening of comment period  
Federal Register March 8, 2004 pages 10633-10636)

To Whom It May Concern:

We, the undersigned, work in a meat plant that slaughters and further processes bovine animals. We are the workers that take extraordinary care to ensure that all regulatory requirements are met to remove those parts of the carcass that are not permitted, by law, to enter the food supply. We are proud of the work we do to produce safe beef for Americans. Our families are proud consumers of the meat that we process.

We strongly encourage that the restrictions placed on livestock movement across the border that were put in place after Canada identified a cow with BSE in May 2003 be removed. Both Canada and the United States have taken strong action to prevent our livestock from this disease, and the new regulations instituted three months ago, along with the other requirements and the diligent work of men and women that work in American meat packing plants are at work every day to make beef that is safe for consumers.

Our continued employment is dependent on the free and fair trade of livestock with Canada. Please reinstate the open border to allow this trade to resume its normal patterns.

Sincerely

Re: Docket Number 03-080-2 (Proposed rule; Reopening of comment period

Nosotros, los suscritos, trabajamos en una planta que mata y aun mas, procesa animales vacunos. Somos los trabajadores que toman cuidado extraordinario para asegurarse que todos los requisitos regulatorios sean cumplidos en remover esas partes de las reses que no son permitidas por la ley de que entren a la parte de carnes de consumo. Estamos orgullosos del trabajo que hacemos en producir carnes seguras para el consumo de los Americanos. Nuestras familias son consumidores orgullosos de la carne que producimos.

Recomendamos fuertemente que las restricciones puestas en el trafico de ganado a través de la frontera, que fueron puestas luego de que Canadá fuera identificada con una res que tenia BSE in mayo del 2003, fueran removidas. Ambos, Canadá y Los Estados Unidos han tomado fuertes acciones para prevenir que nuestro ganado sea infectado con esta enfermedad, y que las nuevas regulaciones instituidas hace tres meses, en conjunto con otros requisitos y el trabajo diligente de hombres y mujeres que trabajan en las plantas de carne estén trabajando todos los días para hacer que la carne sea seguras para nuestros consumidores.

Nuestro trabajo continuo depende del trafico seguro y justo de ganado con Canadá. Por favor, vuelvan a abrir la frontera para permitir que este mercadeo resuma sus patrones normales.

Sinceramente
